Referral Rewards!

Last Updated Wednesday, 02 October 2013

If you have been happy with your WebNexus/SCR Online account, no matter what type of account you have, you can refer your friends, family or business associates to us and get a reward!For each customer that comes to us by your recommendation, you will receive $1 off your monthly bill permanently! up to 10 referrals for any service.

For example, if you are using dialup and you bring us a dialup customer, your bill will drop from $20/mth to $18.95/mth and so on until you reach $9.95. Same goes with hosting, the various different hosting packages, and our DSL. How's that for price fixing?!

Recommendations are yours to give, and we strive to improve our service to you constantly. This is just another way we want to be able to improve our services through pricing. So think of us when you're asked for a service provider or host. Tell them to let us know they heard it from you, and we'll make the changes to your account as soon as they sign up!

Remember that we are a National Internet Service Provider so you can refer anyone in the US to us. Just access our Call Finder Tool to see if we have local numbers for their area and then have them contact us to sign up over the phone with a credit card. Set up takes only minutes!Our DSL services are currently offered throughout California however we are working on becoming a National DSL provider as well. We also offer discounts to all active and reserve military personnel and members of Military.com .

Contact us if you have any questions about this referral program or any of our other services.
